BRANDING YOUR CALENDARS

1. What do I need to provide?

Please supply a printed colour sample of your logo, such as one from your letterhead or business card. Additionally, share any details you'd like printed on the calendar - this could include a slogan, contact information, website, or other essential branding elements.

2. What format should my logo be in?

Your logo must be in a high-resolution digital format, preferably as a PDF, Illustrator (EPS or AI), InDesign, or Photoshop file. If supplied in Microsoft Word or at low resolution, we may need to redraw it for a small fee to ensure optimal print quality.

3. Will my colours and details be accurate?

To maintain colour accuracy, please provide a Pantone or CMYK reference number. Alternatively, we can match the colour to a printed sample you supply.

Before printing, you'll receive full proofs of your artwork for approval, ensuring the final product meets your expectations.
